

mobilegs® Ultra

The Smart Choice for More Satisfied Patients, Better Outcomes

Say goodbye to traditional crutches. Discover an entirely new mobility experience with Mobilegs, crutches that deliver the highest level of fit, comfort and performance.

"With the old crutches I'd often just stay on the couch. They were nothing like Mobilegs, which enable me to go wherever I want.

Shoot, I could hike a mountain with these things.

Last week, I went to a Twins game and walked around the stadium no problem. Then, I mobied the Mall of America!"

Jeffery, Park City, UT

Superior Design Combined with New Technology

Purchase Price for Set: \$500.00

Ultra Saddle

- Flexible mesh distributes weight evenly
- Spring absorbs pressure and motion, minimizing chafing
- Pivots to allow users comfortable, fluid movement
- Saddle rotates, properly aligning shoulders, arms and hands

Ergonomic Hand Grip

- Neutral wrist position distributes weight optimally
- Conforms to hand, distributing pressure and weight evenly for Better load bearing

Mobilegs Arc & Rocker Foot

- Arc centers body weight through entire stride, providing stability
- Arc allows hip clearance for better maneuverability
- Bottom of Rocker Foot rounded for smoother gait

Adjust & Fit

- One SKU accommodates majority of users – 96% of US adult population
- From 4'9" to 6'4"
- Up to 300 lbs.
- Customers and practitioners say they are easier to fit than traditional crutches
